

MAJOR :
CORPORATE FINANCE

Campus : Paris

 Full Track English

 Alternance

Description of the major :

The advanced corporate finance major covers aspects of financial management by companies, their funding and capital budgeting functions, usually seen of particular interest for those students considering either working in a finance function within a company, or working as a corporate financial adviser. The course builds on previous corporate finance classes taught at Inseec (in French and English), so it will assume some knowledge of basic corporate financial methods and vocabulary.

Program content :

- [Module 1 : Strategic Finance](#) : Mergers and Acquisitions - Financial Engineering - International Capital Markets
- [Module 2 : Financial Data Management](#) : Blockchain and cryptocurrencies - Introduction to Bloomberg - Case Studies in Finance
- [Module 3 : Alternative Corporate Finance](#) : Start-up Financing - Corporate Finance Derivatives - Advanced Corporate Finance
- [Module 4 : Corporate Finance Analysis](#) : Financial Analysis - Investor Relations - Risk Management
